

Making Your Home Smarter and Safer Every Day

Control your lights from anywhere

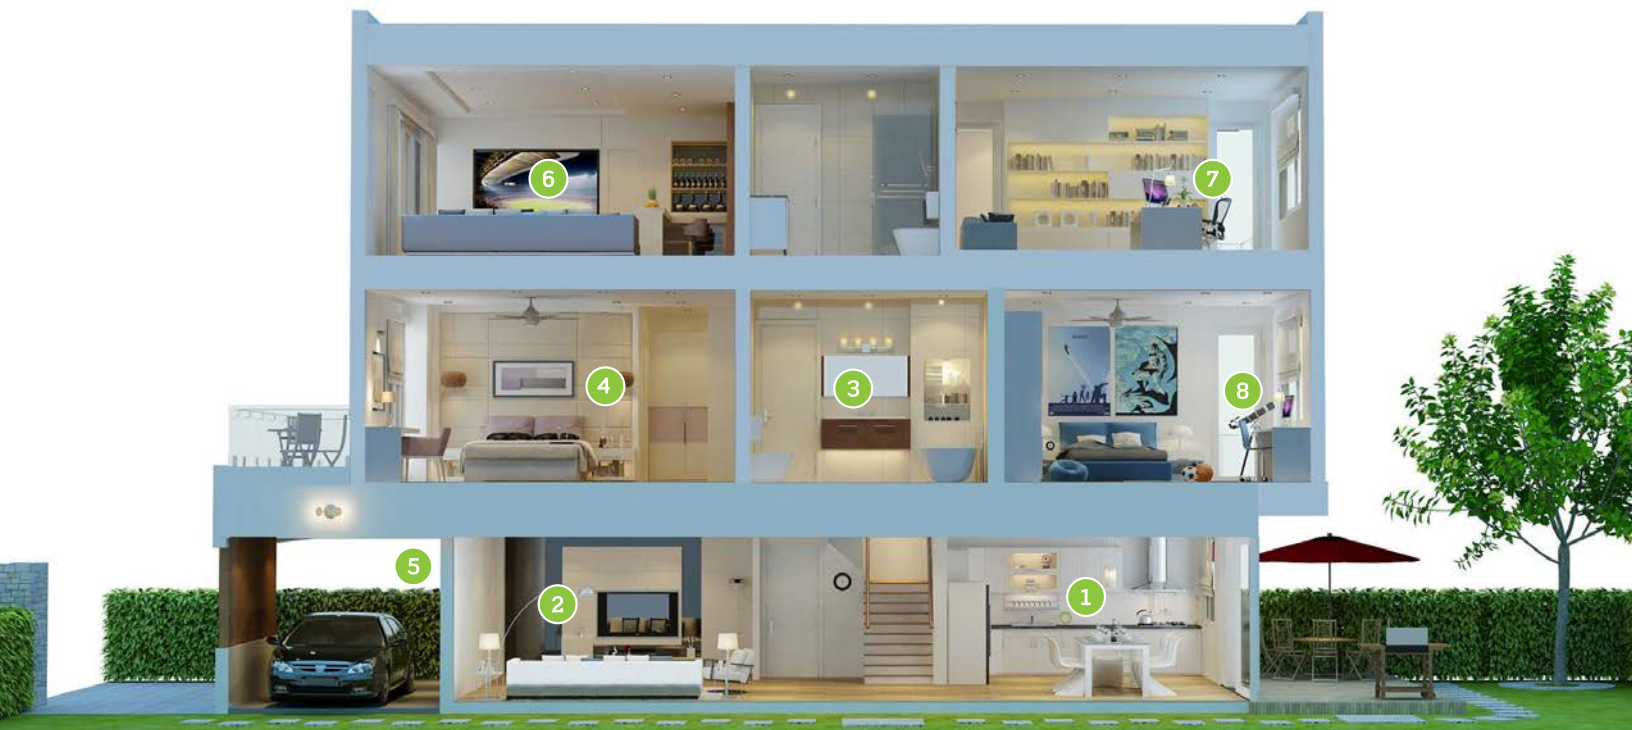

Easy Wi-Fi Lighting for Your Home

Leviton Decora Smart™ complete line of Wi-Fi dimmers, switches, plug-ins and more let you control lights, electronics, and appliances from anywhere. Schedule lights and devices to turn on when you want them, such as sunrise and sunset. Leviton offers truly smart lighting where schedules can run even during temporary internet outages. Connect to your favorite smart products and services including Alexa, Google, SmartThings, August, IFTTT, and more.

All you need is Wi-Fi and internet, no hub required.

Designed, supported, and engineered by Leviton in USA with an industry-leading warranty.

Complete Lighting Solution

LIGHT THE WAY

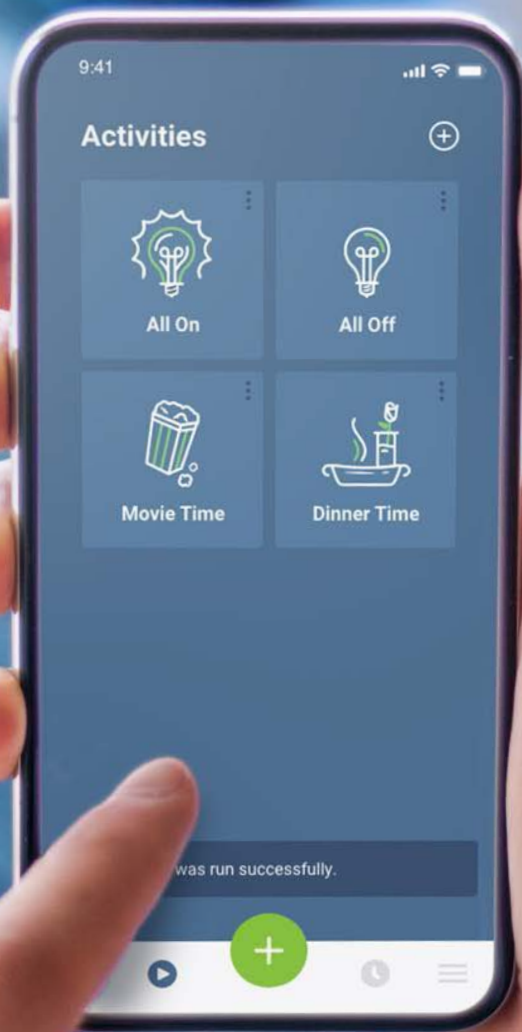

Whether you're using a single plug-in to control a table lamp or connecting dozens of dimmers, switches, outlets, wall controller and more, Leviton has your home covered.

- Control lights, electronics or appliances from anywhere
- Schedule your lights to illuminate when you want them, or randomize for vacation purposes or a lived-in look
- Use a countdown timer for hallways and bathrooms to ensure lights are turned off
- All you need is Wi-Fi and internet, no hub required
- Truly smart lighting – schedules run even during a temporary internet outage
- Match your style – 6 color options complement existing Decora® devices in your home
- Multi-Way Compatible – Control the same lights from more than one location using a smart dimmer paired with a matching remote
- Best in class full-range dimming performance including low-wattage LED bulbs.

Built-In Voice Control

USE YOUR VOICE

Leviton's Decora Smart Voice Dimmer combines full range dimming control of your lights with the intelligence and capabilities of Amazon Alexa – built in – simply replace a standard light switch to put the power of Alexa into your home. No hub needed and no visual clutter.

Not only can you control lighting and other smart home devices using your voice, Alexa can answer questions, report the news, play music, get the weather, run timers, create to-do lists and much more to make your daily life easier.

Smarten up entry ways, living rooms, laundry rooms, playrooms, bedrooms, bathrooms, kitchens – anywhere you want hands-free control without any extra hardware or hassle.

“Alexa, dim the lights to 50 percent.”

“Alexa, what’s in the news today?”

Create Time Schedules

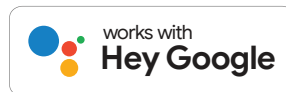

CONNECTIVITY

Decora Smart Wi-Fi lighting can be connected to your favorite smart products and services.

- **Google Assistant** – Want to remain comfortable on the couch? “OK Google, Turn Living Room Dimmer to 10%.”
- **Amazon Alexa** – Sometimes you need an extra hand. Simply tell your Echo to adjust the lights, ceiling fans, or plug-in loads
- **SmartThings** – Add Wi-Fi lighting to your hub
- **August** – Run My Leviton lighting Activities when you return home
- **IFTTT** – Connect products and services to make your home even smarter.
